OBJECTIVE

"Applying programming skills to create high quality and practical applications. Studying and improving knowledge of the latest technologies in the software field "

EDUCATION

HO CHI MINH UNIVERSITY OF EDUCATION

09/2016 - 09/2020

INFORMATION TECHNOLOGY DEPARTMENT

GPA of the 1st semester 2018-2019: 8.0

EXPERIENCE

PERSONAL EXPERIENCE

09/2016 - Present

STUDY

- High ability to self-study and learn from others (teachers, friends,...).
- Experiencing in doing fullstack in many student projects, reports,...
- Having an interest in doing practical projects.
- Being suitable for long projects with a high logical level.

TEAMWORK EXPERIENCE

09/2016 - Present

ADVANTAGES

- Proactively scheduling and setting the goal for the student project.
- Being a group leader to assigning work in accordance with the ability of group members, ensure the fairness in workload, issue specific deadline.
- Having a high sense of responsibility and a sense of error acceptance and error correction.
- Suitable for dynamic teams

DISADVANTAGES

- Lacking of experience due to having few chances to take part in group and big projects.

PROGRAMMING EXPERIENCE

09/2016 - Present

ADVANTAGES

- Having good knowledge of C/C++ programming language, SQL server, C# , winform , ASP.NET, ASP.NET MVC5,...and having real projects.
- Mastering object-oriented programming (OOP) in C++, usually practicing on website : upcoder.hcmup.edu.vn
- Applying various techniques such as 3 layer, trigger, store procedure,...
- Having basic knowledge of PHP, JQuery, CSS ,... Having a real project under framework codeigniter.
- Having an interest in studying NoSQL database systems, having basic knowledge of MongoDB, Oracle,... having a real project.
- Having a demo sort algorithm project.

DISADVANTAGES

- Learning a lot of new things to catch up with the trend.
- In-class time is limited leading to not go deep in all programs
- Realizing that real projects are much harder and have more requirements than student projects.

ACTIVITY

TUTOR

05/2017 - Present

MATH AND PHYSICS TUTOR

- Recent job is to tutor math grade 6 and 7.
- 2-year experience in tutoring secondary math and physics.
- High sense of responsibility and sympathy, friendly.

CONFERENCE

05/2017 - Present

SOFTWARE TECHNOLOGY, BIGDATA, AI, IOT,...

- Participating in IT activities in many fields. Especially in data engine.
- Viewing technology bulletins on various forums: J2team, Kteam,... regarding AI fields.
- Keeping track of technology conferences organized by China, America,... about technology vehicles, smart devices, robots,...

SOCIAL ACTIVITY

05/2017 - Present

CHARITY WORK

- Taking part in social voluntary activities with IT faculty like giving charity gifts in social protection centers.
- Joining in cleaning school and classroom activities.

REFERENCE

Mr.Trần Sơn Hải – IT teacher - super tester automation
Mr.Lương Trần Hy Hiến – IT teacher – fullstack dev

AWARD

TOP 3 PROGRAMMING GROUP IN THE ANNUAL ACADEMIC HC-OLP CONTEST OF IT DEPARTMENT

2017
